Past performance cannot guarantee future results. Returns for periods greater than one year are annualized. Returns are expressed in U.S. dollars and reflect the reinvestment of dividends and other earnings. Composite and benchmark returns are presented net of non-reclaimable withholding taxes, if any. Gross-of-fees returns are presented before management and custodial fees but after all trading expenses. Net-of-fees returns reflect gross performance less investment management fees. Net-of-fees returns are calculated by deducting 1/12 of the highest tier of the standard fee schedule in effect for the period noted (the model fee). The

composite model fee for each period is either the highest tier of the current fee schedule or a higher value, whichever is required to ensure the model composite net-of-fee return is lower than or equal to the composite net-of-fee return calculated using actual fees. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size. The firm's fees are available on request and may be found on Part 2A of its Form ADV. High, double-digit returns are highly unusual and cannot be sustained. Investors should be aware that these returns were primarily achieved during favorable market conditions.

The Munder Multi-Capitalization Composite includes all fee-paying, non-wrap discretionary portfolios of \$100,000 or more that are managed according to the Munder Multi-Capitalization strategy. The strategy focuses on companies with above-average earnings growth and strong earnings momentum, combined with reasonable valuations and strong investor sentiment. The composite creation date is July 2003 and the composite inception date is July 2003.

The benchmark of the composite is the Russell 3000® Index. The Russell 3000® Index is an index of the top 3,000 U.S. stocks by market capitalization covering 98% of the U.S. equity investable universe.

Index returns are provided to represent the investment environment during the periods shown. Index performance does not reflect management fees, transaction costs or expenses that would be incurred with an investment. One cannot invest directly in an index. **Past performance does not guarantee future results.**

Risk Statistics source: Zephyr StyleADVISOR. Characteristics, Top Ten Holdings and Sector Diversification source: FactSet Research Systems, Inc. The top ten holdings and sector diversification are presented to illustrate examples of the portfolio's investments and may not be representative of the portfolio's current or future investments.

Holdings are subject to change and should not be construed as a recommendation to buy or sell individual securities.

Information relating to portfolio holdings is based on the representative account in the composite and may vary for other accounts in the strategy due to asset size, client guidelines and other factors. The representative account is believed to most closely reflect the current portfolio management style.
